

## USE THE 'GOOD' SILVERWARE

**THIS IS THE PREVAILING MESSAGE IN THE TABLETOP INDUSTRY TODAY**, according to Emily Noh, senior merchandise manager for the Tabletop Division of Gump's in San Francisco.

Flatware is designed to enhance your table setting, as well as feel good in the hand and should be used and enjoyed every day and not just for "special occasions."

Well-crafted and beautifully designed pieces denote tradition and infuse daily life with thoughtful details. Great value is found in a high quality product when used every day!

Remember, when choosing flatware or tabletop items, these pieces will become treasures over the years and should be something that you will wish to use for the rest of your life. Ultimately, your decision may be one that is steeped in tradition or based upon the whims of fashion. ■
